Demo Kit Order Form

RuBee Demo Kits come with a standard base station, calibrated loop antenna, and 12 RuBee Tags. This is not a software development kit, it is for board room demonstrations and includes a variety of tags, a manual and two videos. The software runs on a PC under windows, it also works under VMware on a MAC. We expect to provide a MAC version of the software latter this year. If you sign an NDA we provide detailed technical material including many confidential whitepapers, and you get a 40% discount.

Base Kit	\$2,500 US	Quantity
Base Kit with NDA	\$1,500 US	Quantity
Shipping	\$60 in US	\$120 Outside US
